Whether you are brand new to calligraphy or you’ve tried it in the past, this is the ideal class to learn all the fundamentals to bring your letters to life. In this class you will learn the elegant lettering style called Foundational, based on a 10th century manuscript. We’ll start with an automatic pen that uses ink cartridges and transition to a traditional calligraphy pen using a metal nib dipped in ink. You’ll learn the steps to put together a layout using your own hand lettering. Students will be encouraged to create a final project based on a short quote, poem, lyrics, or names. Experienced students are welcome to register for class and work on other lettering styles or projects during class with the instructor’s assistance.
